KEYWORDS Blood Groups. Scheduled Castes. Scheduled Tribes. Other Backward Classes. Jabalpur

ABSTRACT Data are presented on the distribution of ABO and Rh blood groups among various population group viz., Scheduled Castes, Scheduled Tribes, Other Backward Classes etc. of Jabalpur, Madhya Pradesh. The analysis of data revealed that the blood group B is predominant in all populations and infact these represent a single homogeneous population serologically in regard to the distribution of the ABO blood groups. The incidence of Rh negative varied from 2.56 to 5.15 percent among them.
