I (Kholekile Ngqila) have noted that in the article “**Indigenous Mothers: An Ethnographic Study of Using the Environment during Pregnancy**” published in *Ethno Med*, 7(2): 127-135 (2013), the name for the second author has not been written correctly and I am sure it was by mistake.

The correct name is **Kholekile Hazel Ngqila** and the e-mail address is kngqila@gmail.com and

hope that it will not be too much of an inconvenience for you. According to my culture Kholekile is understood to be a name for males – hence I always prefer the inclusion of Hazel to minimize confusion.
